EDUCATION

Indian Institute of Information Technology, Bhopal

October 2022–May 2026

Bachelors of Technology – Computer Science Engineering(CSE)

CGPA 7.68

Relevant Coursework: **Data Structure & Algorithms, Object Oriented Programming, System Design, Database Management System, Operating System**

EXPERIENCE

Full-Stack Development Intern | KT-20 (Canada) [Credentials](#)

18-April 2025 –18 July 2025

- Developed and maintained scalable full-stack features for a platform serving **10,000+ users**, enhancing performance and user experience across web modules.
- Implemented JWT authentication with bcrypt-secured logins and integrated RESTful APIs with optimized database queries, enhancing security (95% OWASP compliance) and reducing page load time by 40%.

ACADEMIC PROJECTS

Club Area | HTML, Tailwind CSS, Express, MongoDB, SQL, JWT Tokens, API Integration

[GITHUB](#)

- Manages 10+ college clubs with role-based access for Leaders, Members (30–50 per club), and Applicants (100+ per recruitment cycle).
- Leaders can schedule 30+ tasks/month, send messages to members, and manage 100+ applications per drive with one-click selection or rejection.
- Members can track assigned tasks, participate in 10+ events/month, and submit structured feedback.
- Collaborated with a 3-member team using Git and weekly sync-ups to ensure aligned module development.
- Designed an intuitive, responsive UI for multi-device access, improving student experience and increasing** secure, role-specific access—resulting in a **40% increase in student engagement**.

Dynamic Form Builder | MongoDB, Express.js, ReactJS, Mongoose, JWT

[GITHUB](#)

- Built a full-stack dynamic form builder (React, Express, MongoDB, Python) with drag-and-drop capabilities, enabling users to create and manage over 500+ custom forms, reducing manual effort by 70%.
- Improved API throughput by 30% by optimizing Express.js endpoints and MongoDB queries, handling up to 1,000 requests/minute with minimal latency.
- Enhanced form rendering speed by 40%, cutting load time from 2.5s to 1.5s on average across modern devices.
- Integrated real-time form previews and schema validation, increasing user task completion rate by 50% and reducing form submission errors by 35%.

Finance Tracker | MongoDB, Express.js, ReactJS, Git, Github, SQL, Pandas

[GITHUB](#)

- Developed a full-stack finance tracking application to manage real-time expenses, income streams, and budgeting, over 10,000 transactions with ease.
- Optimized transaction processing by 35% by indexing MongoDB collections and streamlining API queries, reducing data retrieval time from 1.8s to 1.1s.
- Designed and integrated interactive dashboards using D3.js and Chart.js, boosting user financial awareness and decision-making by 50% through clear visual summaries.
- Deployed JWT-based authentication and AES encryption, increasing data security compliance by 30%, and ensuring safe access for over 1,000+ user accounts.

ACHIEVEMENTS

- 3★ Coder @ CodeChef – Maximum Rating: 1635
- Knight @ LeetCode – Maximum Rating: 1947
- Global Rank 222 out of 22,508 participants in CodeChef Starters 166 Division 3 (Rated)
- Secured a position in the top 1 percentile among 1 million+ candidates in JEE Advanced 2022, qualifying through JEE Main 2022 (top 23,000 out of 1 million+ aspirants)
- Solved 1000+ problems across platforms including Codeforces, CodeChef, LeetCode, DSA College Assignments, and other coding platforms
- Followed agile practices & participated in PR reviews in projects, improving code quality & delivery speed. Ranked 6th in the AlgoUniversity Graph-Camp Contest at the college level

ADDITIONAL INFORMATION

- Technical Skills:** C, C++, Python, JavaScript, MATLAB, HTML, CSS, MySQL, Numpy, Pandas, Matplotlib, Seaborn.
- Technologies:** React JS, Node JS, Express JS, Bootstrap, Git, RESTful API, AWS.
- Developer Tools:** GitHub, Google colab, VSCode, JSON, MS Office Suite, Postman.
- Soft Skills:** Problem Solving, Team Collaboration, Scalable Thinking, Communication, Adaptability.
